Associate Mechanical Project Manager

Description:
Exciting things are happening at NORESCO!

NORESCO specializes in energy and environmental efficiency performance contracts and energy infrastructure projects for a variety of public and private sector clients. What makes NORESCO unique is our ability to engineer and implement turnkey energy solutions that meet each customer’s individual needs. We also pride ourselves on the excellent relationships we maintain with our customers. We earn their trust and respect through listening and timely response to their needs and concerns.

Working with NORESCO, you'll be a part of something extraordinary... a successful and growing company that achieves results through honesty, integrity and credibility. We are committed to maintaining a professional, ethical, and safe environment for our employees and our customers. When you join us, you'll find an entrepreneurial spirit that fosters forward thinking, teamwork and the exchange of ideas - everything you need to develop a fulfilling career.

Our Construction Team

NORESCO’s Construction Group manages the design/build construction activities for large commercial and institutional facilities. Our construction management teams develop the scopes of work, project schedules, and budgets, conduct customer meetings, maintain project records, hire and manage subcontractors on the job site. They are also adamant about safety. These positions generally require travel.
