Plant Engineer - Lead Capital Projects!

Description:
GAF Materials Corporation, founded in 1886, and Elk Corporation, founded in 1955, became one company in 2007- making us one of the largest building materials companies in North America as well as the largest commercial and residential roofing manufacturer in the U.S. Leading the industry as one, GAF Elk Corporation is a $3 billion private company with approximately 5,000 employees working at manufacturing locations in 12 states. Our customers include homeowners, architects, distributors and contractors. GAF-Elk is growing rapidly and we are searching for outstanding people to join our team.

We are looking for a Plant Engineer for our North Branch, New Jersey facility! The Plant Engineer is responsible for the development and execution of capital projects for the plant. You will be tasked with developing and monitoring the project plan throughout its life cycle and partnering with the maintenance department for managing ongoing capital needs for plant shutdowns and down days. The ideal candidate has impeccable planning and execution skills, is an effective communicator and has a bias for action!

Specific responsibilities include, but are not limited to:
1. Manage the plant's environmental compliance with local, state, and federal regulation acting as primary Environmental Coordinator.
2. Ensure capital projects are executed in compliance with OSHA regulations and environmental requirements.
3. Develop effective working relationships with the production, maintenance and logistics teams.
4. as well as close coordination with plant counterparts.
5. Coordinates the preparation and execution of all capital improvement projects
6. Develop a detailed long-range budget for the plant's annual capital expenditures to present to Corporate Engineering and Finance.
7. Coordinate resources to ensure timely and accurate execution of plant projects.
8. Ensure strong two way communication channels and plans exist to make sure important messages are communicated to all maintenance employees.

Requirements:
A BS in Mechanical, Chemical or Electrical Engineering along with 8 years of project planning & scheduling and budgeting experience. Demonstrated advanced interpersonal, financial tracking systems and Microsoft Project, Word, Excel, PowerPoint and Outlook proficiency. Demonstrated experience managing and executing highly visible and time-sensitive projects.

We offer a competitive salary and benefits package including 401(k), medical, dental, vision, prescription drug, tuition reimbursement, and a vacation package. At GAF-Elk, we believe our employees are our greatest resource.

GAF-Elk is proud to be an Equal Opportunity Employer, committed to workplace diversity. M/F/D/V
