

**Mechanical Engineering**  
*Spring 2008 Seminar*

Wednesday, April 2, 2008

**1:00-2:30pm**

Room 224 MEC

**Ervin Bales**

Research Professor

New Jersey School of Architecture

New Jersey Institute of Technology

**Sustainability, Green Building and the Mechanical Engineer**

Sustainability and Green Buildings have become an important part of the American general public dialog. Popular and technical publications and television programs are discussing the adoption and impacts. How does this trend impact Mechanical Engineering and what opportunities does it offer? What does sustainability mean and what is a Green Building?
